

The Medical Examination

The Embassy's appointed medical practitioner is: *Knightsbridge Doctors.*

Medical examinations are performed at: 4 Bentinck Mansions, London W1U 2ER which is within walking distance from Bond Street Station on the Jubilee and Central lines of the London Underground and **15 Basil Mansions, Basil Street, London SW3 1AP**, which is very close to Knightsbridge Underground Station on the Piccadilly Line. **You will be advised which of the two offices you must attend when you make your call.** The enclosed maps and directions will assist you in locating both premises.

Scheduling the appointment: You may schedule an appointment by telephoning **020 7486 7822**, Monday to Friday, from 9:00 a.m. to 5:00 p.m. You **must** quote your case number when making your call. Appointments are scheduled on a first come, first served basis.

Fees: An adult medical examination (i.e. aged 15 and over) costs £290.00; a child's medical examination (aged 14 and under) costs £120.00. Additional charges may apply if further tests are required. Payment is made at the time of the medical examination either in cash, or by credit card (Visa or MasterCard) or debit card. **Personal checks are not acceptable.**

Missed appointment/cancellation fees: If you fail to keep your appointment or cancel/change it with less than three clear working days' notice, you will be liable for a cancellation charge of £95.

Forms and documents that must be presented to the examining physician on the day of the appointment:

- **4 photographs for each person attending the medical, including babies.** The specifications of the photograph are the same as those obtained for the visa;
- **Vaccination records for each person attending the medical, including babies.** Vaccination records are dependent on age. See chart on pages 7 & 8;
- **Passport, driving license or photo license;**
- **Police certificate** issued by ACPO – (applicants aged 16 and over only);
- **Medical questionnaire** which is printed on page 9 of this packet must be completed for **each person attending a medical, including babies; and**
- Applicants who have ever been treated for **Tuberculosis (TB)** are required to bring all medical and specialist reports relating to the diagnosis and treatment.

Special notice for K visa applicants: K visa applicants are not required to meet the vaccination requirements at the time they apply for a visa. However, they are required to meet them at the time they apply for an adjustment of status in the United States. If you take your vaccination records to the medical appointment, it may be possible to use the results of the medical examination in the United States.

In most cases **the results of the medical examination** will be couriered to the Embassy **four working days** after the appointment date. If, during the course of the examination, it is found necessary to refer you to a specialist for a further diagnosis, the panel physicians will assist you in locating one. In such cases it will not be possible to issue the medical results in four workdays.

In general, the medical examination is valid for 6 months and the chest X-ray for 6 months but can be shorter. The panel physician will advise you further on the day of the medical examination.

What to Expect at the Medical Examination

The medical examination consists of a physical examination (eyes, ears, nose, throat, extremities, heart, lungs, abdomen, lymph nodes, skin and external genitalia) chest X-ray, urine sample to screen for gonorrhoea and a blood test, which includes testing for venereal disease. The urine sample, blood test and X-ray are generally not required of persons under the age of 15, but they are required, under existing United States immigration law, of all other persons. **Note:** Pregnant women are required to undergo an X-ray. You will have an opportunity to discuss this further on the day of the appointment.

A chaperone will be offered to a female where the doctor is male, or for children.

Vaccinations: On the day of the medical examination, the physician will be required to verify that you have met the vaccination requirement, or that it is medically inappropriate for you to receive one or more of the following vaccinations: Hepatitis A; Hepatitis B; Influenza, Influenza Type B (HIB); Meningococcal, Mumps; Measles; Pertussis; Pneumococcal; Polio, Rubella Tetanus and Diphtheria Toxoids; Varicella. **NOTE:** The Varicella vaccination is unavailable in the United Kingdom.

In order to assist the health centre, and to avoid delays in the processing of your visa, you should have your vaccination records available for review at the time of the medical examination. **Please consult with your regular health care provider to obtain a copy of your immunization record, if one is available.** If you do not have a vaccination record, the panel physician will work with you to determine which vaccinations you may need to meet the requirement and can provide any that you are lacking on the day of your appointment. Please refer to the last page of this package for a chart showing the required vaccinations and age restrictions and a breakdown of costs for each one. If the vaccination record is not in English, please have the document translated and signed by a doctor.

IMPORTANT NOTICE

Only after your medical examination has been completed successfully and the consular officer has interviewed you can a decision be reached as to your eligibility under the law to receive a visa. You should **NOT** make any final travel arrangements, nor take other irrevocable actions until the visa has been issued and you are in receipt of your passport.

Knightsbridge Doctors

How to find us

Knightsbridge Doctors is located at 4 Bentinck Mansions, Bentinck Street London W1U 2ER just off Marylebone Lane in the heart of London's medical world.

Arriving by Taxi

We are a short taxi ride from Euston, King's Cross, and Padding Intercity train Stations.

Arriving by Tube

We are a 5 minute walk from Bond Street and a 15minute walk, or short taxi ride, from the Regents Park, Great Portland Street and Oxford Street Underground stations.

Parking

Commercial car parks are marked on this map and there are also local meters in the adjoining streets. There is no car park at the medical practice.

4 Bentinck Mansions
Bentinck St
London W1U 2ER

Map B

Basil Street

The practice is situated in Knightsbridge, just yards from Harrods and Harvey Nichols, and a 2-minute walk from Knightsbridge Underground. The practice is based on the ground floor of a mansion block at 15 Basil Mansions, Basil Street, London SW3 1AP

How to get to the Practice

By car: The nearest public car park is the Pavilion Road NCP (entrance via Stackhouse Street), just behind the practice. Both metered parking and Kensington and Chelsea residents' parking are available in surrounding streets. There are 2 disabled parking bays in Basil Street.

By Underground: Knightsbridge Underground station is on the Piccadilly line. For the simplest route to the practice, take the 'Harrods' exit. If you are travelling westbound, this exit will be found at the far left of the platform. If you are travelling eastbound, this exit will be on the far right of the platform. As you exit the Underground with Harrods on your right, take the first left turn into Basil Street. 15 Basil Mansions is within a mansion block on the right, just after and opposite the Capital Hotel.

By Bus:

Brompton Road: 14, 74, 414, C1

Sloane Street: 19, 22, 137, C1

Knightsbridge: 9, 10, 14, 19, 22, 52, 74, 137, 414

Frequently Asked Questions

Can I go to a different medical facility or to my own doctor? Unfortunately no. Only Knightsbridge Doctors' medical practitioners have been authorized to conduct medical examinations on behalf of the U.S. Government.

I have recently undergone a medical examination on behalf of my employer/insurance company. Can I use the results of this examination at the time of my immigrant visa interview? I regret not. Only a medical examination conducted for an immigrant visa application is acceptable.

Do I require vaccinations? If you are applying for an immigrant visa you will be required to have certain vaccinations as described on pages 7 & 8. While it is not necessary for K visa applicants to have these vaccinations in order to obtain their visa, they will be required to meet the vaccination requirement in the United States at the time they apply for an adjustment of their status with the US Citizenship and Immigration Services from nonimmigrant to conditional or permanent resident.

I do not wish to have/ I do not wish for my child to have some of the vaccinations. What should I do? If you do not comply with the vaccination requirements, your immigrant visa application will be refused. While waivers of the vaccination requirement are sometimes available on moral and religious grounds, you should be aware that such an application carries an application fee and can take several months to process, thus delaying the issuance of the visa. You will be required to discuss this with the consular officer on the day of your visa interview at the Embassy.

When do I contact the Embassy and when do I contact Knightsbridge Doctors? Detailed information concerning visa application procedures, the visa interview, the medical examination and what to expect once you enter the United States on the visa is available from the Embassy's website at <https://uk.usembassy.gov>. Applicants with case specific inquiries may use the contact form at <https://uk.usembassy.gov/visas/visa-information-services/contact-us-immigrant-visas>. Questions concerning the scheduling of the medical examination should be directed to Knightsbridge Doctors. **Please note that Knightsbridge Doctors cannot answer any questions concerning the visa application process.**
